Rendezvous with the chopper at O'Hare

Figures like this show you the final results.

Articles are written in plain English—not high-tech computer language that's hard to understand.

Illustrations show you how to save time solving complex problems, and allow you to try out the tip or technique as you read the article.

Each issue delivers step-by-step instructions for techniques like:

- Making good landings
- Navigating with the latitude/longitude coordinate system
- Using the updated flight equations and time-of-day effects
- Understanding the cockpit interface
- Installing add-on scenery packages
- Choosing the best Flight Yoke
- Learning to pilot all the exciting small planes!

Plus, *Full Throttle* shows you timesaving strategies, provides practical solutions, and helps you uncover all the secrets that Microsoft built into Flight Simulator. Act today, and find out how real it can be!

Let the experts at The Cobb Group lead you through the topics you don't have time to explore. Discover what hundreds of thousands of subscribers already know: No one explains software better than The Cobb Group, publishers of such software-specific journals as *Inside Microsoft Windows*, *Inside WordPerfect*, *Inside DOS*, and *Inside the Internet.*

Mail the card below and get a **FREE** issue!
